To Whom It May Concern:

Re: European Union's REACH Substance of Very High Concern (SVHC) Candidate List

Standard Belden wire and cable products which were manufactured after 10/15/16 do not contain any of the substances listed on the European Union's REACH Substance of Very High Concern (SVHC) candidate list as of July 2017 above the 0.1% allowable limit. The list of substances can be found on the ECHA website below.

<http://echa.europa.eu/candidate-list-table>

Additionally, our products do not contain any chemicals included on the REACH Restricted Substance List (REACH Annex XVII) which are being used in a restricted application.

This letter only applies to Belden standard products. If you require specific information on specialty part numbers or have further questions, contact us by emailing sustainability@belden.com.

Additionally, Belden exports only articles to the European Union. Therefore, registration is not required. Belden will continue to monitor changes to the Reach legislation and react accordingly. Belden does not anticipate any interruption in material availability due to REACH.

This declaration is applicable for Belden cable manufactured in North America. The information provided in this Product Disclosure, and the identification of materials listed as reportable or restricted within the Product Disclosure, is correct to the best of Belden's knowledge, information and belief at the date of its publication. The information provided in the Product Disclosure is designed only as a general guide for the safe handling, storage, and any other operation of the product itself or the one that it becomes a part of. This Product Disclosure is not to be considered a warranty or quality specification. Regulatory information is for guidance purposes only. Product users are responsible for determining the applicability of legislation and regulations based on their individual usage of the product.
